The Altmetric score is one measure of the quality and quantity of online attention that this article has received. You can read about how Altmetric scores are calculated here.

This article scored 58.25

The context below was calculated when this article was last mentioned on 7th October 2013

Compared to all articles in Advanced Materials

So far Altmetric has tracked 1,556 articles from this journal. They typically receive more attention than average, with a mean score of 6.8 vs the global average of 4.2. This article has done particularly well, scoring higher than 98% of its peers.

All articles of a similar age

Older articles will score higher simply because they've had more time to accumulate mentions. To account for age we can compare this score to the 60,876 tracked articles that were published within six weeks on either side of this one in any journal. This article has done particularly well, scoring higher than 96% of its contemporaries.

Other articles of a similar age in Advanced Materials

We're also able to compare this article to 5 articles from the same journal and published within six weeks on either side of this one. This article has scored higher than 2 of them.

All articles

More generally, Altmetric has tracked 1,558,053 articles across all journals so far. Compared to these this article has done particularly well and is in the 98th percentile: it's in the top 5% of all articles ever tracked by Altmetric.
